Trekking and Activities with donkeys

Onotrekking (trekking with donkey): it is a fascinating and suggestive way to awaken old sensations that only the contact with the animal and the sharing of the path by its side can give, retracing ancient and new paths of the Gallura countryside. The times of trekking with donkeys, in fact, are different from a "human" trek, simply because donkeys dictate times and pauses along the way.

Didactical Farm with guide

The Didactical Farm is a direct link between rural and city life. The aim of the project is food education, the transmission of rural world's values and culture and to promote agriculture awareness linking the past to the present. For the all day or half day, the farm proposes workshops involving practical activities of direct contact with animals and plants in their natural habitat and includes a visit to the reconstruction of an ancient Sardinian farm.

Dolphin Watching

Without doubt watching dolphins strike smoothly out of the water, side by side, is magic. However, understanding who they are, what they do and how they communicate makes this experience unforgettable. Swimming silently on seafloor with myriad fish can be tons of fun for all ages but finding hidden sea creatures makes snorkeling a real adventure.
