Paddle along sea cliffs and remote beaches, and spend your evenings indulging in delicious homemade Italian food. 2 days off work. Experience a perfect blend of adventure and relaxation with a long weekend on the island of Sardinia.

You'll spend your days kayaking alongside rugged sea cliffs, swimming in crystal-blue coves, and snorkeling at quiet, hidden beaches. In the evenings enjoy home cooked Italian meals and local wine in the comfort of a local agriturismo.

CANYONING

On the granite mountains behind the beautiful and famous beaches of San Teodoro there is one of the most beautiful and popular canyoning routes of Sardinia: Rio Pitrisconi. As with all the canyons of Sardinia the ideal season to descend it is the rainy season: autumn, winter, spring.

In summer, however, unlike most of Sardinian canyons, Rio Pitrisconi maintains a very faint water flow sufficient to maintain most of its beautiful large pools (photos and video refer in fact to summer). So you can enjoy the beauty of Rio Pitrisconi even when the scorching summer heat wraps Sardinia.

HELICOPTER TOUR

Give yourself a magic tour flying comfortably above the Emerald Coast and the Maddalena Archipelago by Helicopter. You will fly over the most striking locations and see the most famous views all around the world. An expert guide will assist you during this breathtaking experience.

The coast line and the inland area of Gallura offer a wide possibility to organize different guided mountain bike tours that will be tailored specifically for your needs. There are different levels of off road and on road excursion that will bring you to see amazing and unexpected views just few kilometers away from your yacht.

PEVERO HEALTH TRAIL

The Pevero Health Trail was born from a love of nature and a desire to share a different side of the Costa Smeralda. Its paths provide an intense workout for runners or mountain bikers, as well as relaxing walks for families. Eleven exercise stations with benches and equipment are located along the trail, each named after typical plants from the area. The trail also includes several interesting monuments to bygone rural life.

PEVERO GOLF CLUB

The Pevero Golf Club was opened in 1972 and within the years it has been considered one of the world's most beautiful in the world. The holes of the Pevero are designed over a spectacularly beautiful routing..

The 18 hole, Par 72 course, 6,751 yards, stretches over a surface of 3.8 miles and its many obstacles include 70 bunkers and several lakes with rocks and vegetation. Putting and pitching green, bunker & chipping green, golfer's bar, (open all year) buvette, restaurant, swimming pool, pro-shop. Driving range: 20 uncovered stations, 5 covered.

HIKING & CLIMBING

Definitely the most beautiful of the Gallura trips: you can walk up and down the hills, across the valleys and small bays and amongst the granite dipped in Mediterranean scrub. During the trip we pass through the famous Valle della Luna, where hippies still live in some of the grottoes. In the valley you can see an ancient granite cave going back to the Roman invasion and on the return road, on the beaches of Capo Testa, some roman columns made from the granite of the nearby caves.

The Island of Tavolara is a huge calcareous mountain that dominates the Gulf of Olbia; its highest peak, Punta Cannone (564 meters), gives us an amazing panorama of the whole Gallura allowing us to sight the Monte Limbara, Monte Nieddu, Montalbo up to Caprera, Strait of Bonifacio and Corsica.

CLIMBING SAN PANTALEO

San Pantaleo is a typical village of Gallura, between his streets it's still visible the architectural style of the ancient "stazzi" while in the background rise granitic towers to protect the country. The route winds below the forest of arbutus and heather climbing around the rocky structures of incredible shapes.

Route length: 8 km - Time: 5 hours - Difference in altitude: 450 m.

Recommended Equipment: Long pants, hiking boots, backpack, water, and for those passionate, the camera.

GO KART

The circuit offers various solutions to those who use it and for this reason it is ideal both for beginners and for more experienced riders. The structure makes use of qualified instructors for the various types of schools, from karting to drifting and rally.

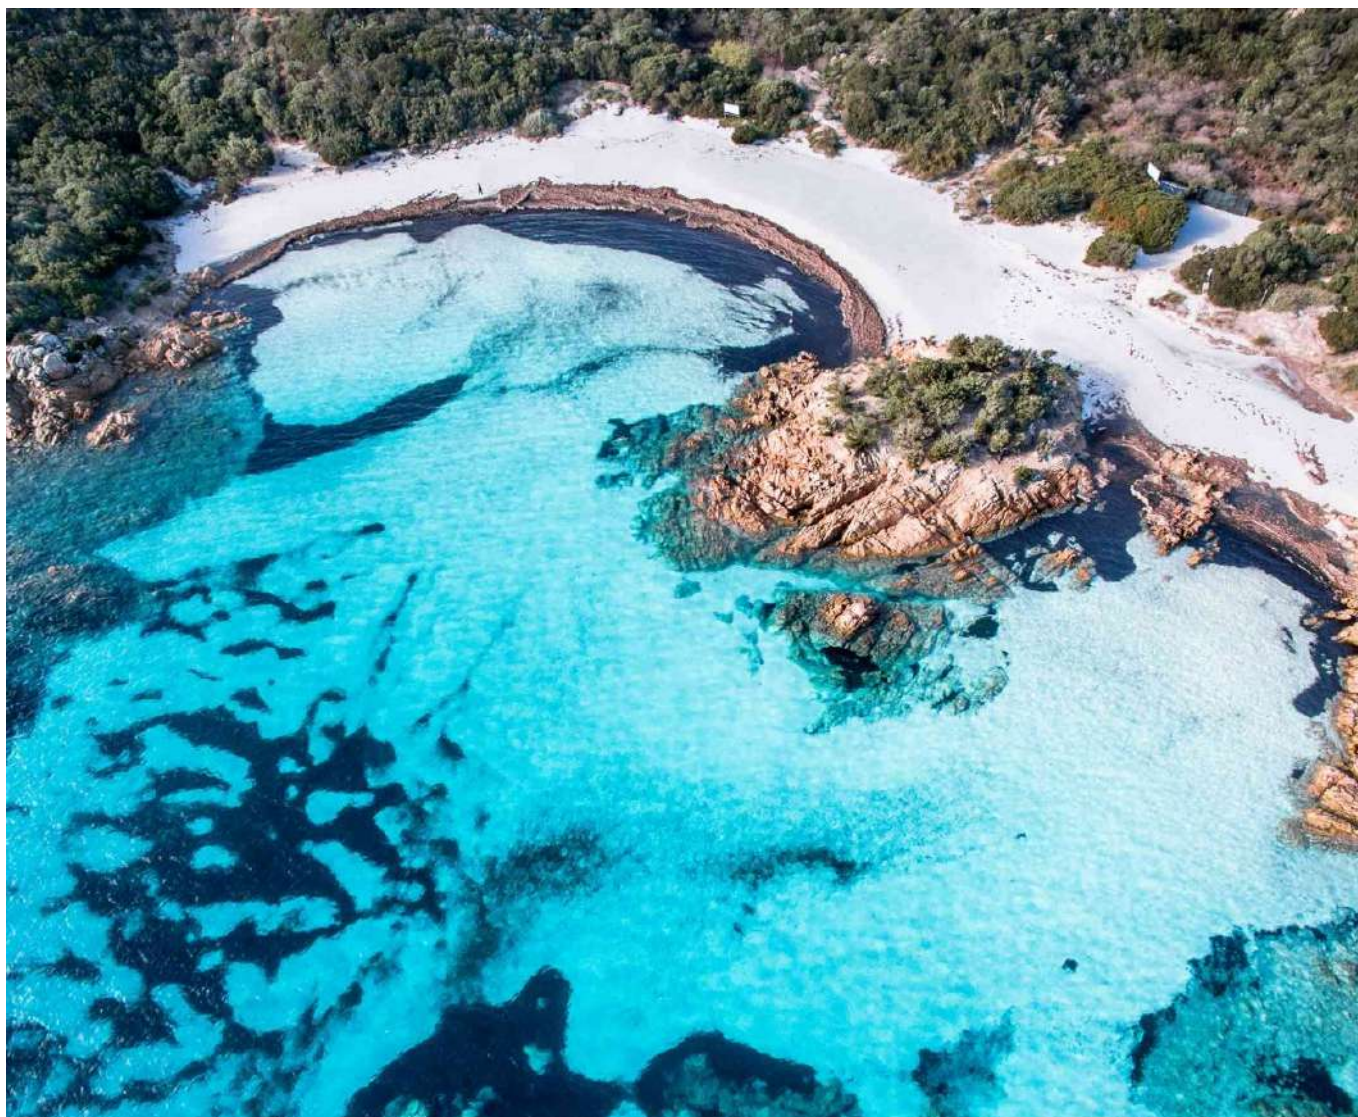

The structure is a lighting fixture in order to better enjoy the cool night of summer. The track was built with two straights, 5 curves on the right and 8 curves on the left, a bump and slight downhill curves that make everything very technical.

TENNIS COSTA SMERALDA

The hotel Cala di Volpe has 3 tennis courts where the Panatta Academy offers with its best teachers a comprehensive package of private and collective lessons for both children and adults. In the spectacular setting of Porto Cervo, the Cervo Tennis Club offers guests 5 tennis courts and a squash court. It also features a gym with new equipment lines designed by Technogym.
