**DAY 1.** Our limousine service will escort the guests from Olbia's international airport to board. The yacht can pick up guest front of Porto San Paolo. The cruise will start the amazing nature of Tavolara national marine park. A stop in Capo Coda Cavallo is recommended. Enjoy Cala Brandinchi's beach and relax. We definitely suggest for nature and adventure lovers Bio watching and diving in Tavolara marine park with our professional guide and mammal watchers. For the night: stay at anchor or berth in Olbia's port. We recommend a dinner with typical Sardinian product in Gallura restaurant in Olbia down town. Either you have children or not on board nature in this area is absolutely fantastic!

**DAY 2.** For the second day we head North towards Golfo Aranci bay. Capo Figarolo offer interesting trekking itineraries or enjoy the rest of the day in Marinella bay. Marinella is a big white sandy beach, fully equipped with tender and toy rental, beach Bar and Restaurants. It is definitely a great anchorage for the day to play without problems with water games. If not done the day before, from there you still have a good opportunity for biowatching with photo shooting or diving in the area of Capo Figarolo, in the immediate area of Golfo Aranci. The nature in this area is surprisingly rich and full of colors and species.

If you have the opportunity to be back in Porto Rotondo at a convenient time it is nice to visit calmly the marina and its surrounding areas. Porto Rotondo is today the sworn rival of the relatively close, Emerald Coast, attracting exponents from the International Jet Set.
