LA MADDALENA
NORTH SARDINIA

P L A C E S T O B E

Seven main well known islands (Maddalena, Caprera, Santo Stefano, Spargi, Budelli, Razzoli a Santa Maria) form the Maddalena's Archipleago. Caprera: Garibaldi's island, is the first one for the beauty of its coasts and beaches. Budelli Island is considered one of the most beautiful islands of the Mediterranean. Poltu Quatu, in the north area of Sardinia, is a "hidden port" not far from Porto Cervo, where to have relaxing walks and luxury shopping. Baja Sardinia and Cannigione, two nice sea villages full of life during the summer. Baja Sardinia in particular, is a very well known spot for the Emerald Coast night life thanks to its famous clubs and discos.

La Maddalena is just 2 kilometres from the North-Eastern shore of Sardinia. The town of La Maddalena is located in the southeast part of the island: stairs and little alleys characterize the historical centre, while the fishing and touristic port of Cala Gavetta, with a column dedicated to Giuseppe Garibaldi, give a very picturesque view to the tourist.

Caprera: Garibaldi's island, after La Maddalena, it is the second island of the Park for size, but it is the first one for the beauty of its coasts and beaches and for its particular Mediterranean flora. A visit to the Garibaldi Compendium is worthy.

Budelli Island is considered one of the most beautiful islands of the Mediterranean, as well as symbol of Arcipelago di La Maddalena National Park, since it houses one of the most significant environmental sites of the area: "Spiaggia Rosa" (the pink beach)

Poltu Quatu. ‘Hidden Port’ in Sardinian Gallura’s dialect, is a marvelous port that benefits of the lights and flashes of the close Porto Cervo and all the Emerald Coast. It has been designed to resemble an ancient fishing village built around the traditional circular square, with charming narrow alleyways and stone buildings. It was founded in 1987 for creating a safe harbour and allowing the sea lovers to navigate it without giving up the finer pleasures of life: prestigious hotel, restaurants and glamour shops are animating the life during the summer

T O U R S

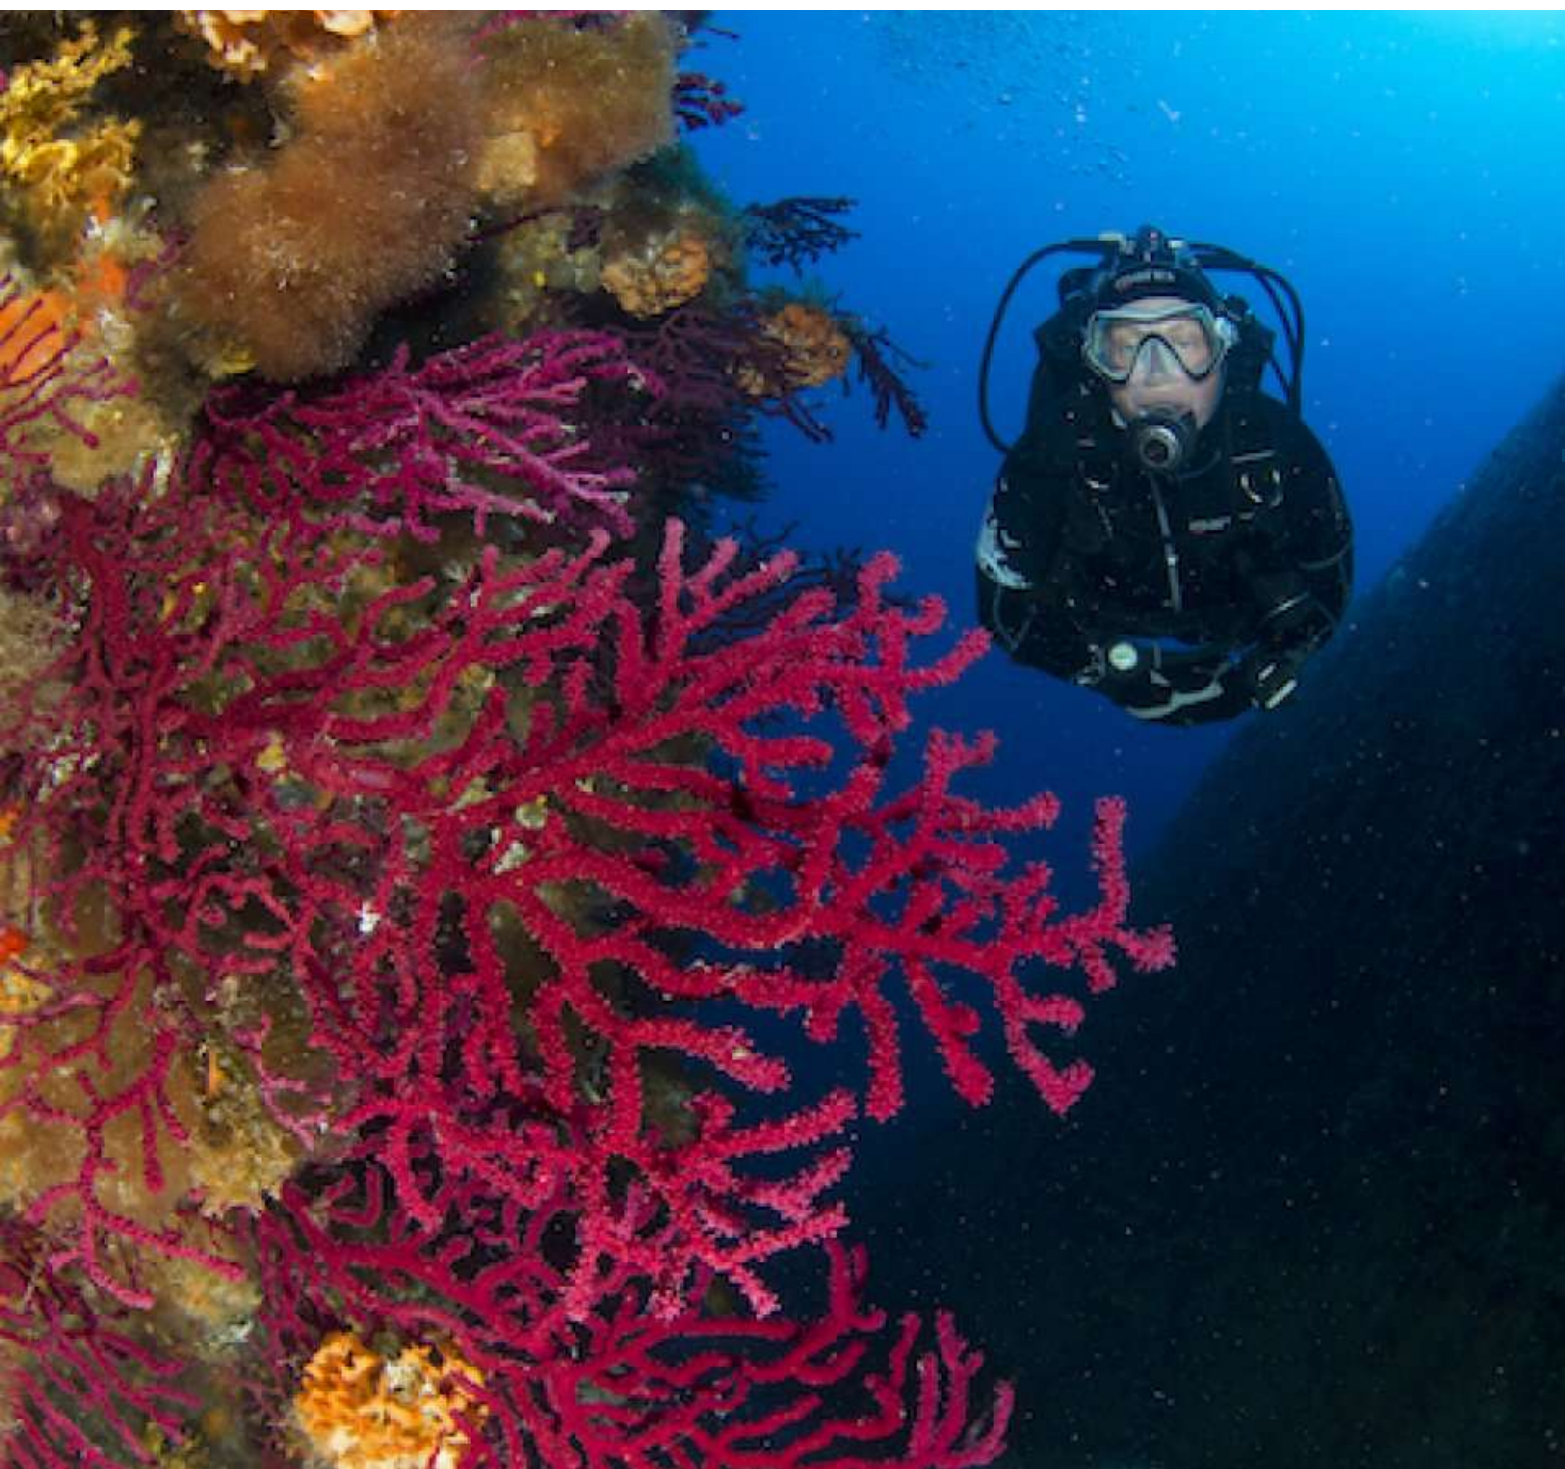

With its fascinating beaches, its territory and its story, La Maddalena offers plenty of itineraries to explore. HISTORICAL CONTENT

This small tomb was built with the filar technique. It is called Li Mizzani. The body of the tomb faces East and contains a rectangular burial chamber terminating at the end with a single block shaped like an arch. The exedra is only partially conserved: the hemicycle is defined by small orthostatic blocks at the base of which is a low sitting bench, also incomplete, destined to welcome offerings. The wall decorations behind the exedra are in continuum with the body of the tomb
